How to configure a Wii Device to Open DNS

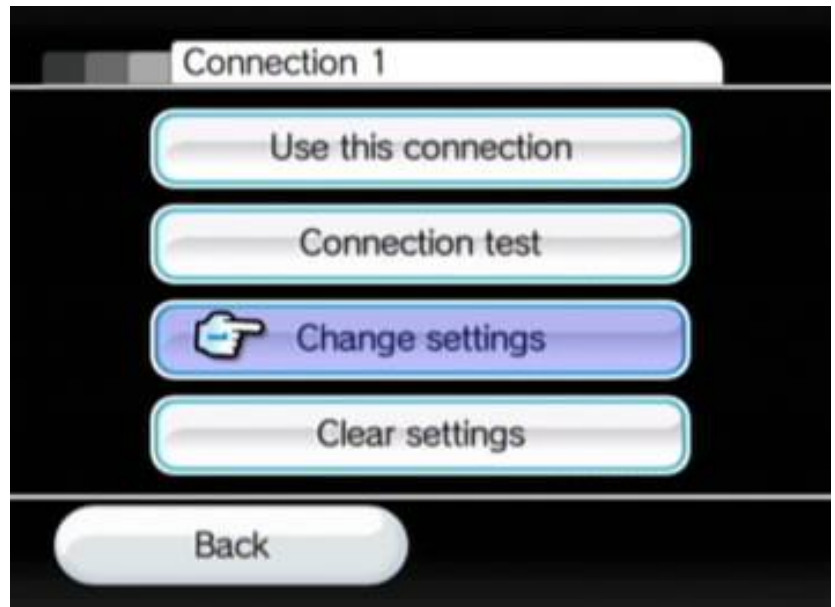

Open DNS

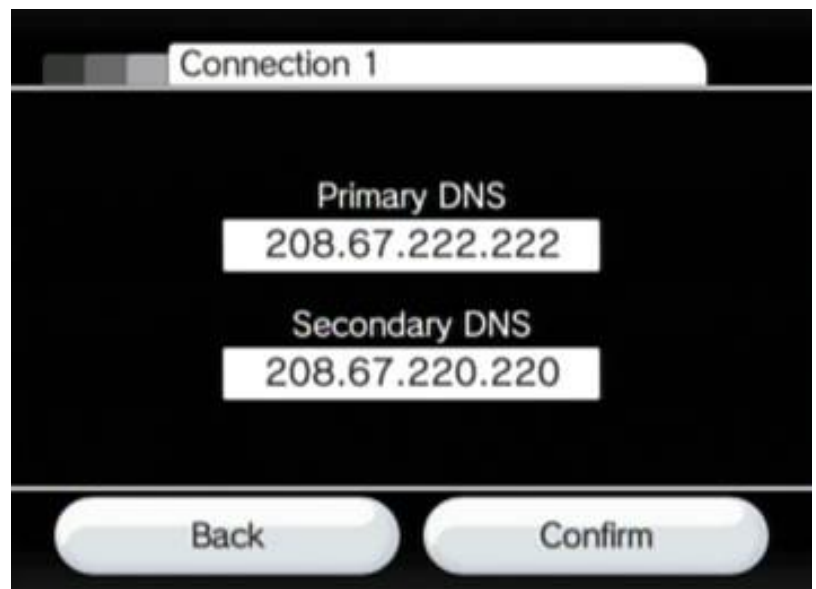

Open DNS provides a cloud-delivered network security services, delivering automated protection against advanced attacks for any device, no matter where it is. Family shield is pre-configured to block adult content, you can set it up and forget about it.

How to Configure

1. Go to **Wii U main menu**.
2. Select **System settings**.
3. Select the **internet icon**.
4. Press the **A button**.
5. Click on **Connect to internet**.
6. Press the **X button** or click **connection** in the top-right corner.
7. Click **change settings**.

8. Click the **right arrow**.
9. Select **DNS**.
10. Click **Don't Auto-Obtain**.
11. Enter Open DNS info. Don't forget the "." between each section.
12. Click on **confirm** to return to manual setting screen.

Additional Information
