Maths LTP – Year 2

Key place value objectives: (focus for starter activities. Objectives should underpin all mathematical skills)
- Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward
- Recognise the place value of each digit in a two-digit number (tens, ones)
- Identify, represent and estimate numbers using different representations, including the number line
- Compare and order numbers from 0 up to 100; use <, > and = signs
- Read and write numbers to at least 100 in numerals and in words
- Use place value and number facts to solve problems.
- Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100

Autumn	Spring	Summer
Wk1- Recognise the place value of each digit in a two-digit number (tens, ones) Identify, represent and estimate numbers using different representations, including the number line **Wk2**- Compare and order numbers from 0 up to 100; use <, > and = signs Use place value and number facts to solve problems. Read and write numbers to at least 100 in numerals and in words **Wk3-** Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: **Wk4**- a two-digit number and ones **Wk5**- a two-digit number and tens **Wk6**- two two-digit numbers	**Wk1**- Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels **Wk2-** Compare and order lengths, mass, volume/capacity and record the results using >, < and = **Wk3-** Solve problems with addition and subtraction: using concrete objects and pictorial representations, including those involving numbers, quantities and measures **Wk4-** Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change	**Wk1**- Recognise, find, name and write fractions 1/3 , ¼, ½, and ¾ of a length, shape, set of objects or quantity **Wk2**- Write simple fractions for example, ½ of 6 = 3 and recognise the equivalence of 2/4 and 1/2 **Wk3**- Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise). Order and arrange combinations of mathematical objects in patterns and sequences. **Wk4-** Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line **Wk5**- Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces

Maths LTP – Year 2

Wk7- adding three one-digit numbers	**Wk5**- Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value **Wk6**- Find different combinations of coins that equal the same amounts of money.	Identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid] **Wk6**- Compare and sort common 2-D and 3-D shapes and everyday objects.
WK1- Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers **Wk2-** Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs **Wk3**- Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot **Wk4**- Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. **Wk5**- Compare and sequence intervals of time **Wk6/7**- Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times Know the number of minutes in an hour and the number of hours in a day.	**Wk1-** Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. **Wk2**- Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity. **Wk3**- Ask and answer questions about totalling and comparing categorical data. **Wk4-** Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot. **Wk5-** Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	Objectives focussed on assessments so that children are secure with all Year 2 curriculum objectives.

Maths LTP – Year 2
