Dear Parent/Carer,

Within this pack, you will find activities that your child can complete during the time away from school. There are activities that are based on:

- ✓ Reading
- ✓ Writing
- ✓ Mathematics
- ✓ Science
- ✓ Theme learning

The front cover of this pack gives login details for online learning platforms that we use as a school. If you have internet access at home, we encourage the children to choose one website per day to complete activities on that their teacher has set.

There is also a grid of activities your child can do that are creative and away from the learning booklet – please tick these off as they are completed. Anyone who completes all 25 will receive a special prize upon their return to school!

Please encourage your child to share their learning with you every day. The pack contains answers to questions, too, so you can check your child's understanding.

If you have any questions, please email admin@windmillacademy.co.uk, where your queries can be forwarded to your child's class teacher and we will aim to get back to you as soon as possible.

With many thanks,

Windmill LEAD Academy
